Profile

Information Systems graduate from Hasanuddin University with project experience in application development, Full Stack Web Development, as well as data processing and analysis. Experienced in developing Android and web applications, with a solid understanding of Python, SQL, Tableau, and Power BI through training and projects. Possess strong analytical thinking, teamwork, and adaptability to new technologies, with a commitment to continuously developing skills and contributing to problem-solving through technology.

Education

Universitas Hasanuddin – Makassar, South Sulawesi 2022 - 2026
Bachelor's Degree in Information Systems | GPA: 3.82/4.00

Relevant Coursework : *Web Programming, Advanced Web Programming, Mobile Programming, Database Systems, Software Engineering, Business Intelligence*

Relevant Experience

Vinix Seven Aurum Feb 2025 - May 2025
Junior Data Science - Project Based Internship

- Processed and analyzed data using Excel and Python (Pandas, Matplotlib, Seaborn), and created data visualization dashboards using Tableau and Power BI to present insights from data.
- Implemented Machine Learning methods, including Linear Regression, Decision Trees, and clustering, and applied Business Intelligence (BI) and Artificial Intelligence (AI) to support analysis and decision-making.

Coding Camp powered by DBS Foundation Feb 2025 - July 2025
Full Stack Developer - Bootcamp Cohort

- Built a comprehensive web development foundation, covering HTML, CSS, JavaScript, Git and GitHub, interactive frontend development, and backend using Node.js and RESTful APIs.
- Developed an application as a final project by applying web development skills, including dynamic application creation, API integration, and feature development according to project requirements.

Skills

Technical: Web Development (Front-end & Back-end): HTML, CSS, JavaScript, PHP, NextJS, Tailwind, Node.js, NestJS, Laravel, RESTful API. Database & Data Processing: MySQL, SQL, Python. Tools: Tableau, Power BI, and Git/GitHub.

Non-technical: Analytical thinking, teamwork, adaptability to new technologies, problem-solving, and communication skills in presenting analysis results into easily understandable information.
